PARTNER NETWORK + IN-HOUSE CONTROL

QUALITY ASSURANCE

CONTROLLED QUALITY AT EVERY STAGE.

Our quality process is built around buyer-approved specifications and stage-wise control. From fabric receipt to final packing, every lot is monitored for workmanship, measurements, appearance and finishing so that each shipment meets the required standards.

01

FABRIC & SHADE CHECK

Incoming fabric is checked for appearance, hand feel and shade consistency.

02

MEASUREMENT VERIFICATION

Critical garment measurements are verified against approved specs.

03

INLINE PROCESS CONTROL

Sewing operations are monitored to reduce defects during production.

04

FINAL INSPECTION

Finished garments are checked for workmanship, trimming and presentation.

05

PACKING AUDIT

Packing is reviewed against buyer instructions before dispatch.

SPECIFICATION CONTROL

Every check is aligned to buyer-approved specifications.

WORKMANSHIP CHECK

Skilled quality team verifies every detail with precision.

FINISHING REVIEW

Appearance, trims and finishes are reviewed before packing.

SHIPMENT READINESS

Only approved lots are cleared for dispatch.

COMPLIANCE & RESPONSIBLE MANUFACTURING

ETHICAL PRACTICES. SAFE WORKPLACE. TRUSTED EXECUTION.

Benesome Apparel follows a responsible manufacturing approach built on ethical business conduct, worker well-being, controlled processes and buyer-focused compliance. Our in-house operations are managed with discipline, while approved partner processes support the extended supply chain with required standards.
